DESIGN EXPERIENCE

Le Base Pune, India

Web Designer & Developer | Jun - Aug 2018

Designed and developed entire web experience for the paper products company. Designed user interactions for product customization through industry & ethnographic research. Worked out an algorithm for dynamic pricing. Made the checkout experience simpler through fewer text fields and a single hierarchical user experience.

Lotus Board Pune, India

Experience Designer | 2016 - 2017

Designed brand identity aspects like the company's logo, stationary suite and business cards. Designed full corporate website through a consistent design system. Built the product customization experience that simulated design attributes such as embossing & screen printing. Helped compose press content to be posted on the website.

Independent Pune, India & Providence, RI

App Designer & Developer | 2016 - Present

Independently designed, developed and published 7 apps in the Apple App Store, garnering a total of 17,000 downloads as of 2018. This endeavor started with teaching myself to code in order to realize my interface designs for education, wellness and early child development. The app making experience has immensely shaped my approach to interface design.

Bilcare Pune, India

Junior Designer | 2015 - 2016

Co-designed an electronic device that checks the authenticity of medication by scanning a proprietary QR code on medicine packaging. Undertook form exploration through sketches and 3D renders. Made technical drawings of the final design to prepare bill of materials for manufacturing prototypes. Gained invaluable experience in working with experts from various fields.

EDUCATION

Rhode Island School of Design (RISD)

Providence, RI

Master of Industrial Design | 2017 - 2019

Graduate Fellowship & Scholarship

Thesis: Investigating people's using of media and technology to design physical and digital experiences to help people spend their time most effectively.

Jacobs University

Bremen, Germany

B.Sc. in Electrical Engineering and

Environmental Studies | 2011 - 2015

Thesis: Did scientific experiments to determine energy efficiency of Algae Bio-fuels and their viability as a scalable source of energy.

TEACHING

Rhode Island School of Design (RISD)

Providence, RI

Teaching Assistant | 2017 2018

Intro to UI Design: Led workshops to teach students to make their first apps and good practices of interface design. Students built simple apps in real-time that they took away on their phones.

SKILLS

Think

User research, design research, concept development, industrial design, user experience, design systems, visual design, art direction, brand identity

Do

Sketching, wireframing, interface design, physical prototyping, 3d printing, machining, usability testing

Use

Adobe XD, Xcode, Android Studio, Fusion 360, Keyshot, InDesign, Photoshop, Illustrator, Keynote

Speak

Swift, HTML/CSS, Javascript, Arduino, PHP, Firebase, English, Hindi, German
